**Schedule subject to change as necessary.*

COURSE CATALOG

CULINARY ARTS

Each child will get the hands-on experience of making their own pretzels, cookies, & mini-pizzas from scratch! From measuring and mixing to portioning and baking, campers will smell & taste their very own kitchen creations!

DANCE

Campers will experience a variety of dance genres like hip hop and jazz. Daily classes will include a warm up, stretch, and choreography and work towards a final performance to be showcased on the final day of camp!

FASHION DESIGN

Students will be introduced to costume design and Haute couture fashions which are commonly worn on the Red Carpet for events! Students will create a glamorous design to showcase at the end of the week and take home to share with their families!

GRAPHIC DESIGN

This week at camp will allow students to explore the basic principles of design and apply these principles by creating their own designs for stickers, logos, labels and t-shirts. Students will learn the basic design tools in Adobe illustrator and then apply them to real world products creating unique objects to take home.

MASS COMMUNICATIONS

From TV and movies to photography and social media, students will get in depth technical experience in the Mass Comm lab! Campers will create their own digital media advertisements along with various other projects!

VISUAL ARTS

Campers will experience visual arts by practicing the process of creating original artwork. While at camp, students will get to choose from a variety of art mediums (graphite, colored pencil, marker, oil pastel and/or paint) to create a celebrity portrait with an abstract background. Students will learn techniques for creating art in realism and abstract form.

MUSICAL THEATRE

Learn about showstopping Broadway performances as you explore songs and scenes from popular Broadway musicals. Have a blast working on singing, dancing, acting, and creating our own IAA musical revue!

STEAM

The STEAM activities offer students a collection of activities that include science, technology, engineering, art, and mathematics. Using Sphero Bolt Robots, students will express inventive ideas and explore the power of programming.
